# Situation Debriefing

FreeDum Fighters is the ultimate showdown between two super-mechanized political figureheads: MAGATRON and Kamacop 9000. The prize?

Total mechanized supremacy forever!

Fortunately for us, this power struggle is taking place in a dimension adjacent to ours, and as such, the effects of this massive brawl aren't as catastrophic here at home.

That doesn't mean we don't have the power to influence the outcome of such a historic event though! With the power of cutting-edge Cryptoquantum technology, our team has effectively bridged the gap between worlds temporarily.

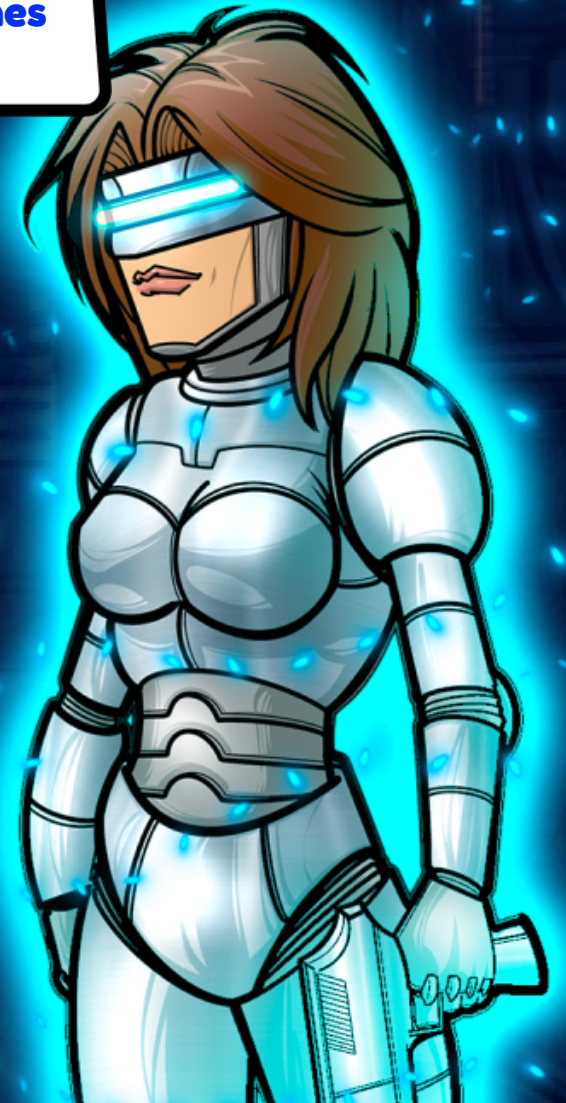

Jump on this opportunity to amass hordes of \$DUM and fuel the political war machine of your Overlord!!

# Project Overview

Pacts will be broken,  
brothers will become  
enemies, and **fortunes**  
**will be made!**

FreeDum Fighters is a satirical, gamified token project that mirrors and parodies the upcoming U.S. presidential election.

Players rally their war camp, stake \$DUM tokens on their favorite side, and dive into weekly debates and other community ventures to bring glory to their platform!

# Tokenomics

The total supply of \$DUM tokens is set at **270,000,000,000**, a shout-out to the amount of votes one of our FreeDum Fighters will need to win.

This represents 100% of the total supply, distributed across various allocations to support the project's growth, development, and community engagement.

54,000,000,000 tokens will be allocated to the liquidity pool to ensure sufficient liquidity for trading on decentralized exchanges (DEXs), facilitating smooth and efficient transactions for all participants.

108,000,000,000 tokens will be made available during the presale phase. This allocation aims to raise initial funding and distribute tokens to early supporters, allowing them to become integral members of the community.

We have allocated 27,000,000,000 tokens to provide necessary covert government funding. This allocation will go towards rewarding the winning parties after each debate week.

# Tokenomics

**20 % Staking Pool**

**54,000,000,000 tokens**

Park your \$DUM for a while, and watch it grow—like a political promise, but better! To incentivize long-term holding and network security, 54,000,000,000 tokens are designated for staking rewards. Token holders can stake their tokens to earn additional rewards, supporting the stability and decentralization of the project.

**10% Everything Else**

**27,000,000,000 tokens**

The remaining 27,000,000,000 tokens are set aside for various purposes, including:

**1**

## Centralized Exchange (CEX) Listings:
